

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am a full time caregiver and use my cellphone only as an emergency support.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. You need to rethink the flat fee for low volume use. I bought my phone on the basis of lowest cost service. I don't need my fees raised. Please reject the proposal to move the USF collection system to a flat-fee.

Please protect my low cost safety net.

Sincerely,

Richrd Cone
